

# *The Art of* **CARPETING & DECOR**

**with Dan Jones**

## **AREAS FOR IMPROVEMENT**

although the vast majority of carpeting that homeowners choose to grace their floors is wall-to-wall, area rugs offer more versatility. To begin with, by placing an area rug on a wood or tile floor, you are getting the best of both worlds. That is, you can bask in the warm glow of a wood floor as well as appreciate the artful design, special material, and beautiful construction of a quality area rug. In a sense, a wood floor acts as a frame around the area rug, as art. Whether an area rug lies atop wood, tile, or stone, the layering can be a study of harmony, contrast, and sophistication. Area rugs focus attention and reflect your personal style.

Wherever it sits, a special eye-catching rug can be the focus of attention of any room. Whether your project is limited to incorporating specialty flooring into your decor in one room or your entire home, think of CARPETS & FLOORS, INC. as the answer to your decorating questions. We can help save you time and aggravation and avoid costly mistakes. Come see what many of your friends and neighbors in the Monterey area already know – for quality, friendliness, integrity, experience, and innovative design, we're the place to visit.

**HINT:** Area rugs define spaces, which is especially useful in the open floor plans of many of today's homes.
